

English Rancher Leases Large Area North Of Gem

Mr. Nelson, English Rancher, Plans to Run Little Over 100,000 Acre Lease from Argenteau to Alberta

A wealthy English rancher, Nelson has leased 100,000 acres of grazing land north of Gem Colony. He will stock the ranch with cattle and operate it in conjunction with another ranch in the foothills south-west of Calgary for which he is now negotiating.

Mr. Nelson spent the winter in England, and he expects to arrive here early next week.

John Wallace has been engaged as manager of this ranch. Mr. Wallace was formerly manager of the White Farm, and for the past year has been managing the C. P. R. stock farm at Tilly, east of Brooks.

This big tract of land lies north of Gem Colony and just south of the Red Deer river, with several miles bordering right on the river. It has been leased for a two-year period.

Mr. Nelson has been ranching in Argentina for a number of years, and he plans to gradually transfer his operations from Argenteau to Alberta. He was here last fall, looked over the land, and decided it looked like a good proposition.

The land under lease is not irrigated, and has been leased for grazing purposes only.

Hussar News

HUSSAR, March 26.—It looks as if curling is really over for the season in Hussar, and spring problems are here. The members of the club located the grounds for the auto camp, and made plans for the improvement of the same, on Wednesday morning.

The school children are playing ball and marbles—a sure sign of spring.

The Young People's Society held a regular meeting on Monday. The bible reading was given by Midge Kiddle. Miss Holman gave a number of hymns. A group of youngsters sang songs given as duets by Arlene Jensen with the violin, and Jason Bell with the sax. A selected reading was given by Rev. Gordon. The paper was read by Margaret Bell. It was decided to continue meetings till June. Next meeting will be held at the Lawson school. Graham Montgomery was elected editor of the paper.

A delightful card party was held at Mrs. E. A. Holland's on Thursday, with Mrs. A. Clifford and Mrs. T. Burdett assisting. It was one of the series under the auspices of the Hussar Ladies Aid. Five hundred was played at six tables. Mrs. E. J. Bell winning first prize and Mrs. F. Parley the consolation prize.

E. P. Currie was a Hussar visitor on Monday.

Geo. Dougherty returned from Turner Valley the first of the week.

Geo. Walters was down from Turner Valley last week.

Miss Hunter returned from Turner Valley and left for her home in Ontario last week.

Mr. and Mrs. E. Andenberg and children returned from a visit to Calgary on Thursday.

Bert, Adolph, and J. Armstrong were down from Calgary for a visit with Mr. and Mrs. C. T. Armstrong, returning on Thursday.

B. O. Swan was a Calgary visitor last Friday.

Sam Klitgaard was in Calgary on Saturday.

Mr. and Mrs. W. G. Nelson, Lois and Dorothy motored to Calgary on Saturday.

Mr. and Mrs. E. J. Bell, Margaret and Jason, were Calgary visitors over the week-end.

Mr. and Mrs. A. Jensen and Arlene motored to Calgary on Saturday. Nels Hornum returned with them.

Mr. and Mrs. Jack Britton were Calgary visitors on Saturday.

Fritz Larson motored up from Brooks on Sunday.

The Misses Jessie and Nancy Elliott are spending the week at home, coming down from Calgary on Sunday evening.

Frank Manary returned to Hussar on Saturday.

Mr. Hendry spent the week-end at her home in Blainville.

R. Dettmer returned to Hussar on Saturday.

M. R. Milroy was a business visitor in Hussar Wednesday.

Conalta Farm Has Been Sold

O. M. Gilbert, New Owner, Plans to Divide it Up into Smaller Farms

The Conalta Farm, north of Gem Colony, has been sold to O. M. Gilbert, a resident of Alberta for many years, and well known around Calgary.

Mr. Gilbert plans to split up the big farm, which covers several square miles. It will be divided into quarter section or half section lots, and sold or leased to Mennonite settlers who will raise sheep in addition to other farming operations. Additional grazing land will be available for the sheep.

Hussar Curlers At It Again

HUSSAR, March 27.—Curling was resumed on Wednesday, March 19, with the ice in as good condition as any time this season. Two important games were played as well as continuing the schedule. On Wednesday evening E. N. Stiles defeated the Brown challenge cup against A. M. Mahoney with a score of 12 to 6. This is the second time the Stiles rink has defended the cup successfully. The players were: E. N. Stiles skip, T. A. Hawkshaw third, W. C. Reesor third, A. Fournier lead, A. M. Mahoney skip, W. G. Nelson third, R. Jans second, J. Walters lead.

The final game of the knockout contest with the mixed rinks was played on Thursday evening when H. D. Brown defeated P. Pringle with a score of 6 to 4. The game was strongly contested. The rink played as follows: H. D. Brown skip, M. A. Robinson third, Mrs. E. A. Holland second, J. B. Hursh lead, P. Pringle skip, A. Hawkshaw third, Mrs. A. Clifford second, Miss Betts lead.

The ladies are curling in a knockout contest. The first game was played on Friday morning when Mrs. McGowan's rink won by a score of 5 to 4. An extra end was played. The rinks: Mrs. R. L. McGowan skip, Mrs. E. J. Bell third, Mrs. H. D. Brown second, Mrs. T. Burdett lead, Mrs. E. N. Stiles skip, Mrs. E. A. Holland third, Mrs. T. L. Montgomery second, Mrs. C.rough lead.

The regular mid-winter series was won by Mrs. Robinson's rink against Mrs. Clifford's rink.

For the third time the rink skiped by E. N. Stiles defeated the Brown challenge cup by defeating the rink skiped by F. Parley on Saturday evening with a score of 12 to 6. The ice was very heavy, but the game was keenly contested. The rinks: E. N. Stiles skip, A. Fournier third, W. C. Reesor second, J. Walters lead; F. Parley skip, E. A. Holland third, W. D. Moffat second, R. Christensen lead.

In the ladies' knockout game on Saturday Mrs. Clifford's rink defeated Mrs. Robinson's rink with a score of 6 to 2. The rink played as follows: Mrs. Clifford skip, Mrs. Parley third, Mrs. C.rough second, Mrs. Hawkshaw lead; Mrs. Robinson skip, Miss Betts third, Mrs. Brown second, Mrs. Hawkshaw lead.

Australia Plans To Create Wheat Pool

The proposals of the Australian Commonwealth government to establish a compulsory wheat pool are briefly, that the Commonwealth government invite the state governments to join in guaranteeing a net return of 4s. (97 cents) a bushel to growers payable on delivery at country railway points. This is to be done by the state governments, in conjunction with transport and other charges, is equivalent to \$1.14 a bushel (i.e., bushel at shipping port). It is stipulated that the government would operate conditional upon the passage of enabling state legislation, and the completion of the requisite favorable voting of growers by July 31, 1936.

Tennis Club Will Meet Next Wed.

The mild weather has begun to warm the enthusiasm of local tennis players, and already tentative plans are being made for the game this coming season. The annual meeting will be held in the office of Mr. McLea next Wednesday evening, April 2. Everyone interested in the game is asked to attend this meeting.

The record of the club last year is a good one. A mixed doubles tournament and two inter-colony games with the Glencliff club added much to the interest and enjoyment of the members.

Farmers Prepare For Spring Field Work

First State of Spring Pools Thursday Afternoon

Farmers in the Bassano and neighboring districts are ready to get spring operations under way as soon as the weather permits. A number have already ventured in the field with drag harrows, but most of them are waiting for a spell of warmer weather before they venture out about spring operations.

The soil is reported to contain little moisture, but this was augmented this afternoon, Thursday, by the first rainfall of the season. It was not a heavy rain, but it lent a cheering tone to the crop prospects for 1936.

The rainfall measured .68 inch at Bassano, .68 at the dam, .64 at Glen and .64 at Centree. The wheat acreage in the district will be from 5 to 7 per cent greater than last year, and most of the crop will be sown on summer fallow.

Rye is already sprouting, but not yet showing the ground, and it is not yet possible to tell what loss, if any, was caused by winter killing. A considerable area has been already lost in the field, but a greater area is estimated to be about 20 per cent more than last year's average.

Duchess News

DUCHESSE, March 27.—Mrs. W. E. Sambooke, of Bassano, is visiting at the home of Mrs. Woodward.

Mrs. Gilbride is entertaining at what this evening.

Mrs. and Mrs. Purcell motored to Bassano Monday.

Mr. and Mrs. McKinnon and children, and Mrs. Hole and Mrs. Dahl motored to Rosemary Wednesday.

Mr. Gorman, chief inspector of schools, of Edmonton, was in town to talk in the U. F. A. Hall Saturday.

March 29, at 2:00 p.m. He will discuss the matter of a high school, including the Duchesse, West Duchesse, Wellman, Sam Howe, Clancy, and Millman districts.

A good many from Duchesse motored to Brooks to see the show, "Uddle Town Cabin," on Monday and Tuesday nights.

Mrs. J. Kelly and Mrs. Wintle, of Brooks, were callers at the Holt home on Tuesday.

Countess

COUNTRESS, March 27.—Miss Bonny Ferguson returned from a visit with her sister, Mrs. Robyn Jones, at Wintering Hills.

Mr. and Mrs. Gumble and family spent the week-end at the home of Mrs. Ralph Burrows, and Mrs. Gumble spent Wednesday with Mrs. Royal Burrows.

Miss Gable spent the week-end at the home of Mrs. Royal Burrows.

A number of Countess motored to Bassano Sunday evening to hear the organ at Knox Church by Rev. Mr. Gable.

Mrs. R. G. Jones and Mrs. Eugene have been visiting at the H. T. Ferguson home.

Julius Jensen was guest at dinner Sunday at the Holt home.

Mrs. McKenna and children were callers at the Shaws home Sunday.

Mrs. R. G. Jones, Jean and Phyllis Plummer, Mrs. F. H. and Mrs. H. Thompson, and Mrs. J. D. Drans were entertained by Mrs. R. L. Gumble on Saturday in honor of her daughter, Miss Gable. The girls played five hundred, Miss Gumble winning the prize. A delicious lunch was served by the hosts, who was assisted by Mrs. Shaws. A most pleasant afternoon was enjoyed by all.

May Be Alberta Election In July

Edmonton, March 26.—Alberta will be in the thick of a provincial election, likely before July 1, in the opinion of leading members of the Liberal and Conservative parties in this city. Announcement of a date of an appeal to the electorate is expected shortly after the provincial house reassembles on April 2.

In the interval, the U. F. A. members are to talk over the situation with their constituents and ascertain the feeling in rural parts of the country before a final decision will be made. The election will be held here at the same time.

To Make Sure

It is known that members of the government intend to make a careful survey of the situation with a view to settling on whether there should be an election this year or not. Some cabinet ministers are said to favor an election while others are disposed to hold everything over a year and take a chance on prospects for success at the polls being brighter at that time. Much will undoubtedly depend on reports from U. F. A. members when they reassemble here next month.

With recent developments in mind, the Liberal and Conservative parties appear determined to prepare for what they believe will be a battle of the ballots this year.

The Altes Lumber yard re-opened this week.

Mrs. Charlie Stephenson returned Saturday to her home at Hutton after having spent a week visiting friends here.

Mr. and Mrs. Ankrum enjoyed the company Sunday of P. A. Gellings and family and J. Arundel and family.

Farmers from here attended the meeting in Bassano on Tuesday.

Mr. and Mrs. Jack Arundel entertained a number of friends to dinner Tuesday evening. The guests enjoyed cards and music.

Mr. and Mrs. Jones and Mrs. Grist and Mrs. Morgan and family spent Sunday evening.

J. W. McDonald Is New Liberal Leader

Macdonald Man Succeeds Capt. Jos. T. Shaw as Provincial Party Leader

J. W. McDonald, K.C., of Macleod, was elected leader at the convention of the Provincial Liberal Association in Calgary Thursday this week. Mr. McDonald, successor Jos. T. Shaw, was chosen for how Valley, who has held the post of leader for the past number of years.

Two hundred delegates assembled in Calgary to attend the Liberal convention, discuss the policies of the party, and choose a new leader.

High tributes was paid Mr. Shaw, and much regret expressed at his resignation.

The loss sustained by the party in the resignation of Mr. Shaw from the leadership was expressed in a resolution presented by Mr. Milton Martin, secretary of the provincial executive.

Capt. Shaw, in his reply to the convention, expressed his personal regret at having to relinquish the leadership for personal reasons.

"That does not mean, however," said Mr. Shaw, "that I shall cease to give the fullest possible attention to the affairs of the party and the province." The speaker expressed faith in the leadership of Mr. McDonald, and would result in a revival of interest in Liberal policies in the province.

Five candidates were mentioned for the vacancy left by Mr. Shaw. They are: W. H. Howson, of Edmonton; J. W. McDonald K.C., of Macleod; Hugh J. Montgomery, of Wetaskin; J. C. Bowen, of Edmonton; and Jesse Gough, of Drumheller.

Rosemary News

ROSEMARY, March 27.—The Rosemary Ladies Social Club held the first regular meeting at the home of Mrs. Gellings Thursday, March 26, with eighteen ladies present. The business hour among the other business plans were made for the afternoon programs for the season.

The ladies had arranged a program which consisted of a talk on "The Hearing of Baby Chicks," by Mrs. Elliott; content of special interest completed the program, after which delicious refreshments were served by the hostess assisted by Mrs. Ankrum and Miss Madeline Eaton.

Mr. and Mrs. Napper, also Miss Bones, motored to Calgary on Monday.

Farmers from here attended the meeting in Bassano on Tuesday.

Mr. and Mrs. Jack Arundel entertained a number of friends to dinner Tuesday evening. The guests enjoyed cards and music.

Mr. and Mrs. Jones and Mrs. Grist and Mrs. Morgan and family spent Sunday evening.

More Trees Will Be Planted This Spring

Board of Trade Will Plant Shetler, Plans Made at Board Meeting

About 4,000 trees will be planted along the 20th side of town this spring by the Board of Trade. The trees will be set out in the form of a shelter belt, and will be planted by the town irrigator's office. The tree-planting committee of the board is now negotiating with the C.P.R. D.M.R. at Brooks for the trees, and hopes to get enough to fill all requirements.

This information was given out at the regular Board of Trade meeting Wednesday night, March 26, in the dining room of the Imperial Hotel.

Stimulating Pool Improvements

Dr. G. Haverth gave an outline of the improvements planned for the swimming pool this year. There is to be a deepening of the pool under the diving board as a safety measure, altering the dressing rooms, and finishing the brick floor at the deep end of the pool. The cost of this latter item would be, he estimated, about \$100, and he gave notice that at the next meeting he would make a motion authorizing the spending of this sum.

Miscellaneous Business

Wm. McLellan, in reporting for the sugar beet committee, gave a review of what transpired at the meeting in Brooks last week when the Ross Valley Sugar Beet Association was organized.

Chas. Hagger reported for the public affairs committee. In connection with the rollation of the town water supply he said samples had been taken of the water for analysis. He also mentioned that there existed a very bad mud hole on the main road near the Clemen street school. The suggestion was made that the Alberta Automobile Association be notified of this.

Dr. Haverth advised the board of the organization of the last of the Athletic Association for the purpose of promoting sport among the young folks of town, and providing clean, healthy, entertainment and amusement for them. He stated the association was in need of funds, and asked the board to consider giving them financial assistance. The problem was turned over to one of the committees to investigate and see what could be done.

Fat's Restaurant

Will Re-Open Soon

Carpenters, plasterers, and painters have been busy the past few days remodeling the interior of Fat's Quick Lunch, and the proprietors expect to re-open for business about the middle of next week.

Fat's suffered severe damage in the Chester fire, Tuesday, March 11th. Much damage was caused by water. H. A. Holmes has charge of the remodeling work which is now nearly finished. Part of the ceiling and roof have been replaced, the walls of the restaurant and the kitchen given a new coat of plaster, and a new floor put down. The floor was not damaged by fire, but the water caused it to warp and buckle, so that it was completely ruined. The whole interior, including the kitchen, is being re-decorated and presents a fresh, clean, and inviting appearance.

On Saturday, April 2, a three-act comedy, "Safety First," will be presented at the Odeon theatre by the Peoria Community Club, of Hettaw.

On Saturday, March 29, a school fair meeting will be held in the Gem school to make plans for the fair this fall.

Eat Jahans arrived in the Colony during the week-end.

Mrs. Hefner, Henry, and friends, were visitors at the home of Mr. and Mrs. C. T. Armstrong, on Friday night, March 28, the H. C. Ladies of Gem plan to hold a social and musicale in the school. A special free picture will be shown, followed by community singing and a program of musical items of local talent. There will be a booth with numerous articles for sale, a fish pond, and ice cream, and a hot dog supper. A hearty invitation is extended to all members of the community to be present and enjoy a pleasant evening.

Here and There
(132)
A fine steel piano wire runs now 1264 miles from Newfoundland to the Azores. This is not to provide the mermaids with strings for their harps, but to measure exactly the distance between the two points. A cable was laid recently and it was impossible to otherwise determine the precise distance traveled by the cable-laying ship.

Travelers aboard the Canadian Pacific Railway's crack summer flyer, the Trans-Canada Limited, will be surprised this year to find colorful upholstery, green tiled bathrooms, cafes, sitting, a place to conservatory and other unusual features. Special sleeping, dining, and lounge sections have been designed and built at the company's Montreal shops for this de luxe transcontinental train, which will be one of the fastest and finest long distance trains in the world.

Save Moisture

More vital than ever is this year. More vital than ever is it to farm better and more efficiently. CATERPILLAR farming is the most efficient method of farming there is — and the easiest. Have a chat with your neighbor who owns one — he'll tell you he cultivates deeper, more thoroughly and cheaper with his CATERPILLAR; the longer he has owned it the less of a problem moisture conservation is to him.

SMALLER YIELD AND HIGHER PRICES

Efforts of the American Federal Farm Board to raise the price of wheat by cutting down the production of this crop are doomed to meet with failure. Agriculturists in the mixed farming areas might heed the advice of the farm board and reduce their wheat acreage, but in the great wheat growing areas the farmers will most likely sow just as much wheat as ever, perhaps more.

The individual farmer will sow every available acre to wheat in the natural hope that, should the price advance, he will be that much better off. Under average conditions the country's wheat crop will be larger than ever, and unless there is a world shortage, wheat will be marketable only at lower prices.

If the Federal Farm Board should succeed in reducing the American wheat crop, farmers in other wheat growing countries — a hope of finding a better market for their own wheat.

WANTED MONEY

Will the money which Bassano put on the emergency airplane landing field be money well spent? It appears as though (1) is the case, for the air mail route from Medicine Hat to Calgary, passing over Bassano, is to be discontinued, and the mail planes will fly from Medicine Hat to Lethbridge. That is the latest report respecting western mail service.

If the change is made it means that Bassano, Brooks, Gleichen, and other towns between Medicine Hat and Calgary have thrown money away on landing fields for which the air mail service has no further use. Bassano spent about \$100 on the landing field here, and no doubt the other towns spent as much or more for the same purpose.

These landing fields were prepared under instruction and for the benefit of the federal department which has charge of the air mail service. Board of Trade and municipal money was used. There was no hope or expectation of financial gain; it was simply a move to aid the air mail service.

If these landing fields are to be cast into the discard, to request a reimbursement for the money would be asking for only what is fair.

"REAL" MUSIC

Evidence that a large number of theatre goers prefer music by living orchestras rather than the "canned" music of sound pictures is found in a poll being conducted by the American Federation of Musicians. This organization formed the Music Defense League, and two months later nearly 1,000,000 people in Canada and the United States had joined the league and vowed their protest against the substitution of mechanical music for living orchestras in theatres. The campaign for league members is just slowly under way, and advocates of the plan hope to enroll millions of members.

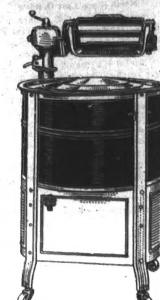

It is in this connection that music lovers to learn that "real" music has still a strong following in spite of the mechanical devices which have ousted the musicians from the theatres. The mechanical reproduction of music has reached an advanced stage of development during the past few years, but this "canned" music fails to strike a responsive chord in the heart of the true music lover. It fails to satisfy him, and it lacks certain indefinable qualities which only the musician in person can supply.

Perhaps it is the sight of the musician as his fingers fly over the keys of the piano, or as his bow draws dulcet notes from the strings of the violin; or perhaps it is a subtle and magic web of golden notes the musician weaves about him as he plays, a web of music that is a part of his very soul. But whatever it is, "real" music possesses a charm and a satisfying quality which cannot be duplicated by mechanical means.

ANXIETY AT THE SWITCH

A curious form of male resistance has been encountered in an overseas country. It seems that the drivers of horse-drawn vehicles are averse to changing to automobile operation upon the grounds that the operation of the automobile precludes the opportunity of sleep while driving. It is a common sight to see these drivers asleep on top of a load of produce while their horses plod along.

Electric Washers

THE RAINBOW ELECTRIC WASHER is making washday easier for a number of Bassano people. Made by Coffield and priced at . . . \$98.00

THE CONNOR Insulated Electric Washer, built to give a life time of service \$175.00

Formaldehyde
Fresh, full strength Formaldehyde for treating grain.
COPPER CARBONATE
5 lbs. Beaver Brand . . . 90c

Mantles
Gasoline Lamp and Lantern mantles American Brand.
per dozen . . . 75c

Easycot
For your walls. May be used anywhere inside excepting on floors. May be stippled so that many new effects may be obtained.

THE ENGLISH
(by Cuth D. B. Ellis)
When all our pride and pomp are past,
When Fortune sets her face to frown
And England's flag is allowed at last
To lay the White Man's Jingo down,
Whether she acts in alien rout,
By Byzantium's agony again
Or lingers through the long-drawn-out
Decayed gentility of Spain,
Or breaks as brittle Athens broke,
Or slurs into Rome's decay,
Or bows her neck beneath the yoke
In some more subtle, modern way,
We shall not know, we cannot care.
In casual graves or quiet vaults,
If the report be false or fair,
Of all our virtues and our faults,
But when some don the desert dyes
Where centuries our cities long ago
And pedagogues rehearse to pigs
The tale of England's overthrow,
If any, in that after time,
Enquire what made those merchants great,
Let them be told of our sublime
Contentment of foreigners and fate.
The heroes of our Duciad
Escaped where angels feared to tread
Till Envy ceased to call them mad
And dubbed them hypocrites instead,
While others in uneasy beds
Dreamed of the wars they dared not wage,
Their teeth a-chatter in their heads
Alternately with fear and rage.
The English, with their own affairs
Remained serenely occupied;
If all men's fate at last lay theirs,
At least they lived before they died.

Kindness First
"What do you do when in doubt about kissing a girl?"
"Give her the benefit of the doubt!"
Flirting Friend
"After I'd sung my encore, I heard a gentleman from one of the papers call out 'Flirt! Flirt!'"
"Dear me! And did you have to pay it?"
Youth: "I say, old thing—how on earth did you manage to talk your people round?"
Fiancee: "Never, said a word—just kept slamm'n' the doors."
Smith: "Have you ever been in a railway accident?"
Jones: "Yes, once when I was in a train and we were passing through a tunnel I kissed the father instead of the daughter."

FORDS ARE SELLING

Roy Smith says Fords are still selling right along, and the new 1936 model, carrying a number of important improvements, is proving popular. He reports the following sales:

A new light delivery to Harry Haines.

A new Tudor sedan to H. Birch, of Clazy.

A coupe to Garevitch & Gopman, of Bassano.

RETIERED BUSINESS MAN

He always said he would retire when he had made a million clear. And so he talked into the dusk from day to day, from year to year.

At last he put his ledger up. And laid his stock reports aside. But when he started out to live he found he had already died.

VARIETIES OF OATS FOR ALBERTA

(Experimental Farms Notes)

Banner and Victory oats constitute at least seventy-five per cent of the oat crop produced in the province of Alberta. These varieties have proven themselves satisfactory both in an experimental and in a commercial way.

Banner has consistently outyielded all other sorts at the Dominion Experimental Station, Lacombe. It is a vigorous grower, and has a long straw which stands up well unless the crop is very heavy. It is the best variety to use for the production of green feed as it will give a greater tonnage per acre than any other sort. Because of its leafy, vigorous growth it acts as an excellent smother crop for weeds when grown as green feed. Banner has a long grain which gives it the appearance of being rather thin, or lean. This is not really the case, as the kernels proper are almost as wide as in what are considered other varieties.

Victory oats are a little earlier maturing, have a little shorter straw and produce slightly less grain per acre than Banner. The kernels are a trifle plumper, thus making the threshed grain an attractive sample. The winnings of this variety over all others as the principal grain shown throughout the continent indicate that this variety is superior to all others for exhibition purposes or for production for a market that will pay a premium for an attractive sample.

Banner and Victory oats appear to be too late maturing for certain sections of the province. For such locations, Alaska is the best of the very early maturing sorts available in the seed trade. In considering the production of this variety, it is well to keep in mind that it will not produce as much grain or straw as either Victory or Banner, and that the only justification for growing it in preference to these sorts is that it is from a week to ten days earlier in maturing. This latter factor makes this sort a very useful variety to use on late spring plowing, or where the land is partially fallowed before seeding. When seeded in the regular season, this variety is frequently ready to harvest in July. It is possible to seed it in the open places of the province as late as June 1 with reasonable assurance of it ripening.

A number of promising new sorts are being developed by different agricultural institutions. Since these sorts are not available in the seed trade, they need not be considered at present.

Wedding

KLASSEN—BAERZ

A very pretty wedding was solemnized at the Mennonite Church, Crowfoot, on Wednesday afternoon, March 19, when Miss Tina C. Baerz, eldest daughter of Mr. and Mrs. C. C. Baerz, became the bride of Cornelius C. Klassen, eldest son of Mrs. T. Penner. The Rev. D. Koerka was the officiating clergyman.

Local News

Dr. A. G. Scott made a trip to Calgary on Wednesday.

Mrs. W. E. Sambrook is visiting in Duchess with Mrs. Woodward.

Wm. McLaws made a business trip to Calgary on Wednesday.

Dr. R. E. Barlow was a business visitor to Calgary on Wednesday.

I. Graft was in from Majorville last Tuesday.

Miss Irene Johnson spent the weekend in Calgary.

Mr. McArthur, of Medicine Hat, C. P. railway superintendent, was in Bassano last Sunday.

I. Garevitch Motored in Calgary last Sunday in his Ford coupe, recently purchased from Roy Smith.

Mrs. F. Gayford and Miss Gladys Hayes were week-end visitors in Calgary.

A son was born to Mr. and Mrs. Andrew Evans on Wednesday, March 26th.

A regular meeting of the W. I. will be held in the Oddfellows' Hall next Tuesday, April 1st.

Through the kindness of Mr. McKee, the W. A. of the Anglican Church will hold a tea and sale of home-cooking at its home on Saturday, March 29, from 3 to 6 p.m.

Mrs. H. S. Johnson and Mrs. H. A. Holmes attended the Women's Institute conference in Lethbridge. Mrs. Holmes as official delegate from the local W. I., and Mrs. Johnson representing the Bow Valley Commission.

Mrs. H. S. Johnson is moving to Calgary early next week and will make her home in the city with Mr. Johnson and their son Ralph. Mr. and Mrs. Johnson are real old timers of Bassano, having come here two ty-one years ago.

Mr. and Mrs. John Wallace have rented the H. S. Johnson home, and will move in early next week. For the past year they have been living at Tilley, east of Brooks, where Mr. Wallace was manager of the C.P.R. stock farm. He recently accepted the position of manager of the new 100,000 acre ranch north of Om. This big block of land has been leased by a wealthy English rancher who also has a ranch in Argentina.

CARD OF THANKS

The Ladies Altar Society wish to thank everyone who helped make a success of their recent wish drive and dance.

Snappy Art

Henry Peck: "Do you think you can make a good portrait of my wife?"

Artist: "My friend, I can make it so lifelike you'll jump every time you see it."

Here and There

(191)

Prior to leaving on U.S. steamer with Mr. H. S. Johnson, Mr. H. S. Johnson, who is to be married in London next month, left Mr. R. Randolph Brown, Lieutenant-Governor of British Columbia, attended the official opening of the new trans-Pacific provincial legislature on his trip by Canadian Pacific across the Dominion. Mr. Brown is a very Lieutenant-Governor in Canada.

Captain A. J. Hoskin, R.N., skipper of Canadian Pacific liner Empress of Canada, was recently named for the second time in succession of the E. W. Healey shield for safety and efficiency. The shield was donated in 1928 by the chairman and president of the railway for competition among company ships of the Pacific fleet.

First week in March witnessed the addition of Alberta and Saskatchewan to the Canadian Pacific Railway's trans-Pacific chain which now covers Montreal, Toronto, Winnipeg, Fleming, for Saskatchewan and Calgary for Alberta. Shogun of the broadcast is "The World and I" and was chanted and sung from ballad opera together with high class orchestral pieces are put on the air every Friday night between 10 and 11 P.M. time.

In Ottawa electricity for domestic use is cheaper than anywhere else on the continent. If not in the world, according to authorities on the subject. It is sold at a rate that averages less than one cent per kilowatt-hour which means that the average bill for electric light incurred by citizens of the Canadian capital is about \$1 per month.

HEALTH SERVICE

OF THE CANADIAN MEDICAL ASS'N

Neuritis

The letters "Nite" at the end of a word mean inflammation, and the term neuritis, when properly used, means inflammation of nerves. There are various types of nerves. One group carries sensations, another controls the movements of muscles, and others still control sweat glands, blood vessels and other organs. Most nerves are made up of bundles of nerve fibres, each of which is active in one of the various ways indicated, and as the whole nerve serves several purposes.

The symptoms resulting from the inflammation of a nerve depend upon the variety of nerve fibres contained in the nerve. If these are sensory nerves there will be pain and tenderness; motor nerves affected mean weakened muscles; and so on. Prolonged exposure of one part of the body to cold, as occurs in sitting beside an open window. In a motor nerve a car may cause a local neuritis. Prolonged pressure on a nerve, as when the arm is held in certain positions, injury from a blow, or chronic pressure may set up a neuritis of the nerves affected.

The nerves are part of the body. No one part of the body is independent of the rest, and so the nervous system is a whole. Neuritis is not a disease in other parts of the body, particularly if it is a general disease. Neuritis is not uncommon in such a disease.

Diabetes.

Poisons, such as alcohol, lead and arsenic, are responsible for the occurrence of neuritis which affects the nerves all over the body. The poisons or toxins given off by disease germs act in the same manner, and so, not infrequently, neuritis is found occurring in cases of diabetes and typhoid fever.

The many causes of neuritis, some of which have been mentioned, are referred to in order to make clear that when neuritis does occur, it is absolutely necessary to find the cause of the condition if proper treatment is to be prescribed.

First of all, it must be proven to be neuritis. Every ache and pain is not neuritis. Treatment thus depends upon the cause. The patient, given no relief from his pain and discomfort, but temporary relief is not given to deal properly with the condition, because as long as the cause remains, the symptoms will recur. The removal of the cause, if of course, the purpose of medicine is to remove it.

Questions concerning health as discussed in the Canadian Medical Association, 194 Quebec St., Toronto, will be answered promptly, at any time.

Analyze the Allowance On Your Used Car

If a dealer pays you more than the true worth of the car he must make up the difference by extra charges on the new car or re-sell it to some one else at too high a price.

Permanent value is always better than a temporary bargain in the purchase of an automobile. It pays to look ahead and consider reliability and ultimate up-keep costs, as well as comfort, safety, speed, and beauty of line and color.

Since most automobiles are bought for replacement, the value set on your used car is a factor in almost every purchase. Frequently it is given an importance beyond its true worth.

Used cars have a definite market value and you are justly entitled to an allowance based on that value. It is not fair that you receive less than what you are entitled to.

If a dealer pays you more than the true worth of the car he must either re-sell it to some one else at too high a price or make up the difference on the new car. This he cannot do unless he is allowed an excessive profit on the car or on financing, extra equipment and other charges. In either case you pay the bill, for no way has yet been found to give something for nothing. The money must come from somewhere.

It is good for you to have a true picture of the used car situation and its secondary importance in the purchase of an automobile.

You may not get the largest used car allowance from the Ford dealer, yet you gain in the long run. You save far more than the seeming difference in trade allowance because of the lower first cost of the Ford, the low charges for selling, financing and accessories, and the lower cost of operation, service and replacement parts. The profits of the Ford dealer are not marked up or increased to cover a high allowance on a used car.

Furthermore, at least \$75 extra value is given to you in the new Ford in the Triplex shatter-proof glass windshield, Rustless Steel, five-spoke wheels, and four Buaidite double-acting hydraulic shock absorbers. The large number of ball and roller bearings, and the extensive use of the steel forgings instead of castings or stampings are other features that show the extra quality built into the Ford car.

Highest Quality for 50 Years

WORLD HAPPENINGS BRIEFLY TOLD

The newspaper Excelsior, one of Mexico City's leading dailies, has announced it will practically eliminate crime news from its columns.

It. Hon. Tom Shaw, secretary of state for war, told a questioner in the House of Commons that no British officer was shot for cowardice during the Great War.

President Hoover worked for the state of Arkansas, on a mineral survey, in 1893, at a monthly salary of \$40, records of the state geologist department show.

Locusts have created a grave situation in Jerusalem, and several immense swarms which have recently appeared in the vicinity of Jericho have brought a fear menace.

Colonel Gustavo Leon, of the Mexican air force, is rapidly going about with plans for a state flight from Mexico City to Paris, with New York as his intermediate point, early in May.

Fire sweeping through Sherbrooke Mining Company boarding house at Sherbrooke, destroyed a \$20,000 structure, burned to death George McKenzie, aged 38, a mill worker, and seriously injured three men.

An official announcement says that 86 churches in Moscow and vicinity would be closed "upon demand of the people and public organizations." This is the largest number of churches ever closed by the Soviet government at one time.

At a meeting in Toronto, of Ontario members of the Canadian Press, proposals of the management for improving the character and volume of the service, particularly along the lines of a "news digest" for Canadian domestic coverage, were unanimously approved.

Place Names in Canada

New Maps Carry Substitutions For Names Which Are Duplicated

While the retention of place-names, many of them due to the Indians, is a settled policy of the Dominion Government map-making departments, it is apparent that confusion would result if such common names as Bear, Deer, Moose, Buck, Goose, and Fish, which have been applied repeatedly to physical features throughout the country, were retained in every case. In a general scheme of mapping such as is being carried out by the Topographical Survey, Department of the Interior, every map which the Department issues, is carefully examined for place-names, appropriate substitutions are made for duplicated names, and new names applied to important physical features not already designated. Hundreds of names are treated annually in this manner.

Were All Males

The Edinburgh Scotsman points out with a certain satisfaction that the three delegates to the Canadian Wheat Pool, who visited London, are all males—Messrs. MacIntyre, Macleod and McNeill. While Mr. McNeill was left in Canada, was also concerned in the negotiations they had with Mr. J. H. Thomas.

Makes Museum Thief-Proof

Super Burglar Alarm System Protects Metropolitan in New York

Installation of a super burglar alarm system in the New York Metropolitan Museum of Arts with its priceless treasures has made this famous institution thief-proof. It is believed by the museum trustees and the engineers who perfected the system.

Not only is the museum protected against actual theft, but any attempt to molest the treasured objects would result automatically in imprisoning the vandal within the walls of the museum.

According to authentic information, the system, recently installed works like the nervous system of a human body. The instant anyone disturbs any of the protected objects, the electric "nerves" records in the "brain centre" the exact point of trouble and also automatically sounds the alarm.

This alarm is given through the medium of a galvanometer on the switchboard in the "watch room," where operators are on duty.

Did Not Stand Test

But Research Work With Calmette Vaccine Is Being Continued

Over a period of four years the Health of Agriculture at Ottawa has been carrying on through the Health of Agriculture Branch a series of experiments in the vaccination of cattle with a culture that it has been claimed would render the stock immune from tuberculosis.

Vaccination was originated by a French scientist by the name of Calmette and is the report of the mettle and his method is designated as BCG. The work done in Ottawa in some cases showed favorable results in very young animals in tending to increase resistance to a limited degree against the disease of tuberculosis.

But according to the report of the Health of Agriculture for the past fiscal year, the great majority of the animals treated two years after vaccination not exposed to natural infection showed stages of progressive tuberculosis. As the vaccinated animals advanced towards maturity the percentage in which tuberculosis was manifested increased.

The researches, however, are being continued at the Animal Disease Research Institute of the Department in accordance with recommendation of the Health section of the League of Nations who have recommended a plan of experimentation for a period of six years. If by that time it is hoped that definite conclusions may be drawn with regard to the safety, value and efficiency of the BCG vaccine.

No Duty On Leather

This Community Will Enter United States From Canada On Free List

After heated debate, the United States Senate decided not to move for a tariff on hides, leathers and shoes, which commodities will now continue to enter the United States free. The vote 16 to 28, of the Senate was decisive and indicates no further change of mind. It means that hides, leathers and shoes from Canada have escaped levies such as probably will be made on numerous other products of the Dominion.

The amount of Canadian export in these commodities run to \$18,000,000 a year and makes up a considerable portion of trade out of the Dominion which might be affected by passage of the Hawley Smoot Tariff Bill.

Teaching Old Dogs New Tricks

Not Reason Why Man Of 45 or 50 Years Cannot Learn Things in Which They Are Interested

"There's hope for the 'Old Dogs' yet," J. S. H. Laycock, professor of psychology at the University of Saskatchewan, asserted in an address that the old theory that "you can't teach an old dog new tricks" has been exploded.

There was adequate evidence to show that people up to 45 or 50 could learn things in which they were interested. Unless a person had actually decided to senility there was no reason why he should not learn.

When Piffness Is Costly

Piffness costs nothing, says an adage. But it costs a lot when it comes to a big skyscraper elevator man, who says that when a man removes his hat in an elevator, it takes up the space of half a passenger, amounting to exact cost of current in a year to \$25,000.

In France and Scotland, New Year's Day is a more important holiday than Christmas.

"Do you keep a dog?" "No."

"Then please do you get your dog?" —Pages Gales, Yreoson

"Do you keep a dog?" "No."

"Then please do you get your dog?" —Pages Gales, Yreoson

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. The condition is not a disease, but it surely follows. You must stimulate your liver, start the bile flowing with Little Liver Pills. They also act as a mild laxative, very valuable, free from colored and poisonous drugs, small easy to swallow, and do not produce constipation. It is not a purgative that cramps or pains, unpleasant after effect following on the contrary a good tonic. All Druggists 25c and 75c red packages.

Sensible People Do Not Envy Millionaires

Money Is Useful But No One Needs Excessive Amount

Statistics show that the United States has 40,000 millionaires and one man in the billion-dollar class. It is not likely that any other country in the world can show so many millionaires, and it is just as well that such should be the case. No man living and in his right mind needs a million dollars. That may strike some readers as an exaggerated statement, but it is not. He can't take a copper of it with him when he is through with this world, and the chances are that he will leave vast sums to his children, and money secured in that way does more to spoil young folks than poverty ever did.

Unknown History Makers

Hundreds Words Words Live, Have Always Been Nameless

There are hundreds of people whose names we do not know, though their words have passed into history. There is the nameless, well-dressed woman, who meeting Wordsworth walking by Loch Katharine one fine evening, observed, "What, you are stepping westward?" She gave the poet the idea for his poem, "Stepping Westward."

There is the watchman who passed under Peppy's window crying, "Past one of the clock, and a cold, frosty morning."

There is the man who first invented the Breton fisherman's petition as he put out to sea, "Oh, God, do Thou help and guard me, the sea is so wide and my boat is so small."

And who was the poor dame who, when questioned by a kindly bishop, held up her dry crust and said, "I have all this, and faith."

And there are, of course, all the unknown whose words are sung and said around the world and will not pass away.

Recipes For This Week

(By Betty Barclay)

MAIRISHMOUTH SALAD

- 4 oranges.
- 2 bananas.
- 1 cup marshmallows.
- 1 cup cream.
- 2 eggs.
- 2 tablespoons sugar.
- 2 tablespoons lemon juice.
- Sprinkling salt.
- 1 cup fresh grated coconut.

Cut oranges into sections, slice bananas and cut marshmallows into cubes. Mix dressing made by beating cream and thickening it carefully with egg yolks, beaten until light with sugar. Cold dressing and add lemon juice and a light sprinkling of salt before adding fruit. Serve with coconut.

CARROT AND PEA DELIGHT

Boil two cups of cubed carrots until tender. Combine with one cup of cooked peas. Make a sauce of three tablespoons thick cream, two tablespoons butter or fat, one and a half cup milk, two teaspoons sugar, one-half teaspoon salt, and a dash of pepper. Add the cooked carrots and peas, reheat and serve very hot.

C.P.R. Opens New Bridge

Built To Replace Old Span At Salmon River, B.C.

A new 475-foot bridge, built by the Canadian Pacific Railway on its main line at Salmon River, B.C., has been opened to traffic with the westbound Imperial Limited from Montreal, the most numerous passenger train. The new span replaces the former one built in 1893, which is being dismantled.

Containing 1,327,697 pounds of steel, the new bridge is the most up-to-date in the west and was erected in keeping with the company's plan to install steel bridges which will carry heaviest types of motive power at present in use or likely to be designed in the future.

Women and Peace

Those millions of signatures taken to the naval conference in London by the women of the world, England, by the women of the world signifying their desire that war and violence of war be abolished constitute a factor so momentous in the world events that it cannot be slighted by the delegates who govern its deliberations. It has long been said that women usually get what they want. In this case it is a question of their getting the abolishment of something they do not want.

High Grade Seed Grain

Want Seeds To Be Taken To Assist Grower Of Ellice Seed

Urging the commission to investigate the conditions under which seed is grown in the province and to take necessary steps to assist this kind of seed grower was the point of resolution passed by the executive council of the Moose Jaw Board of Trade.

The resolution will be forwarded to the Boards of Trade in Regina, Saskatoon, Yorkton, Swift Current and Weyburn for consideration.

The action follows an appeal by Major H. G. L. Strang, Penn. Alberta, who recently stated that such men as Dr. Sanger Wheeler, Northern, and J. C. Mitchell, Dabinda, who grew elite seed, were being forced through financial hardships to abandon the work, which was so valuable to the province and the Dominion.

An Interesting Fact

Something Everyone Does Not Know About "Nine Times"

Do you know your "nine times"? If you do, you will be able to realize the magic of the number 9. Just run through your multiplication table, and you'll find that twice nine are eighteen, and eight and one are nine. Three nines are twenty-seven, and two and seven are nine. Four nines are thirty-six, and three and six are nine. Right to the end of the table you'll find that this rule holds good—nine times anything gives an answer with figures that, in turn, add up to nine units which added together, give forty-five—and four and five make nine again.

Saskatoon Egg Pool

Initial Payment Of 18 cents a Dozen On All Grades Of Commercial Eggs

Initial payment of 18 cents a dozen will be made on all grades of commercial eggs by the Saskatchewan Co-operative Poultry Producers Ltd. on the new egg pool. This price is 19c, which will be paid last year's account of new legislation which compels the pool to make the initial payment 80 per cent. of the current value of eggs.

A Gateway To The North

Lakes and Waterways In The Alluring Hinterland That Lead To The Arctic Ocean

Prince Albert National Park in the province of Saskatchewan promises to become the most frequented gateway to the waters of that alluring hinterland of Canada as yet so little known. Beyond park boundaries, to the north, west, and east, lie a succession of lakes and waterways, extending like the links of a silver chain for literally hundreds of miles on the northwest, finally reaching the waters of the Far North and the Arctic Ocean, and on the east, Hudson Bay.

Shows Great Improvement

In eleven years the weight of the lightest Diesel engine has been reduced from about 65 pounds per horsepower to less than three pounds and the speed increased from about 750 revolutions a minute to more than 25,000.

She: "I heard someone yell 'fowl'; where are the fowlers?"

"Oh, this game is between two-picked teams."

One-fifth of the imports into New Zealand are from the United States

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

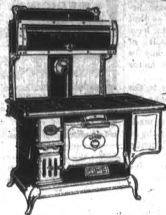

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding WINDOLITE a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under WINDOLITE. WINDOLITE comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.

Aviation Rapidly Growing in Canada

OTTAWA, March 26.—Out of 5,000,000 passenger miles flown by airplanes in Canada during 1929, accidents involving deaths or injuries numbered 29, according to statistics prepared by the information service of the civil aviation branch of the Department of National Defence. There were 21 deaths from "flying operations, of which 16 were passengers, 14 pilots, and one a person on the ground who became involved in an airplane accident. Eleven passengers, twelve pilots, and two third parties on the ground were injured. In 1928 there were ten accidents involving death or injury, deaths numbered 17 and injured 22. Passenger miles in 1928 totalled 3,853,782.

Practically all the accidents were due to breach of air regulations, while one was caused by structural failure of aircraft. The statistics include operations of all commercial companies, flying clubs, and the Ontario Provincial Air Service.

During the year approximately six million miles was flown by aircraft as compared with 2,785,414 in 1928. Freight carried totalled 3,700,000 pounds as compared with 2,044,832 pounds in 1928, and 1,098,234 pounds in 1927. Flying hours totalled 78,307 as compared with 43,671 in 1928.

During the year 191,544 pounds of mail were carried of which 436,456 was contract mail. In 1928 mail carried totalled 316,631 pounds and in 1927 it was 146,842 pounds.

The Ontario Provincial Air Service had 11,032 flying hours with 1,029,000 passenger miles and 663,427 aircraft miles to its credit. The O. P. A. S. had only two minor accidents, involving neither death nor injury.

Commercial companies operating in Canada in 1929 numbered 95, compared with 52 in 1928 and 29 in 1927. There were 714 pilots compared to 44 in 1928 and 36 in 1927. Licensed aircraft numbered 408 in 1929 compared with 233 in 1928 and 67 in 1927. There were 323 commercial pilots and 254 private pilots in 1929. In 1928 commercial pilots numbered 192 and private 154, while in 1927 there were 40 commercial pilots and 9 private pilots.

There were 33 privately owned aircraft in operation during the year but the mileage of these craft is not included in the statistics.
